

OUR STORY

How many times have you sat at home wishing you could just have a personal chef? Someone to bring you fresh food that was just pulled out of the oven. And better yet, you could order it up at almost any time of day and it would be something new, exciting and innovative.

Welcome to Burrito Drive! Burrito Drive is operated by local Madisonian Dave Swedarsky. Dave and a few other locals opened Burrito Drive after years of dreaming about getting Mexican food delivered. But we knew it needed to be more than just regular food. We noticed Madison needed a fresh take on Mexican food, a new style of Mexican food. And we wanted to bring it right to your home, or office, or party....anywhere you are!

We use only the finest and freshest ingredients. We soak our beans overnight, make our guacamole everyday from fresh, ripe avocados, chop and prepare all of our own salsas, pickle our own red onions....

Our reputation is based on our standard of quality, fresh and inspired foods. So whether you create your recipe yourself, choose one of our signature dishes, dine in with us, pick up your order, or let us deliver your meal to you, you can expect the most creative and fresh Mexican food Madison has to offer!
